Interesting facts about elephants

- Elephants are the largest land animals on Earth, standing up to 14 feet tall at the shoulder and weighing up to 10,000 pounds.
- Elephants have a long, thick trunk that they use for breathing, eating, and communicating with each other.
- Elephants have a unique sense of smell that allows them to detect prey from a distance.
- Elephants have a complex social structure, with groups of elephants living in herds or family units.
- Elephants are known for their strong bonds with their families, and they often spend their entire lives with the same group of elephants.
- Elephants are also known for their intelligence, with some elephants being able to learn new tricks and skills over time.
- Elephants are also known for their strong sense of empathy, with some elephants being
